Subject: FW: DTSC Approval for Subarea 8 Addendum to Workplan

Stephie and John,
The Department of Toxic Substances Control (DTSC) reviewed Addendum No. 7 to the Chemical Data Gap Investigation Work Plan, Phase 3 Soil Chemical Sampling at Area IV for Subarea 8 (Addendum No. 7; CDM Federal Programs Corporation, June 2013). The Work Plan and Master Field Sampling Plan for Chemical Data Gap Investigation, Phase 3 Soil Chemical Sampling at Area IV (CDM Programs Corporation, April 2012) was approved by DTSC on April 11, 2012.

DTSC has been reviewing Addendum No. 7 since the initial submittals were received on June 5, 2013. Based on our review, DTSC approves the final Addendum No. 7 for implementation.

If you have any questions regarding this approval, please don't hesitate to contact me at (714) 484-5434 or Mr. Mark Malinowski at (916) 255-3717.

Thank you,
Laura Rainey

Subject: Approval for Subarea 8 Workplan

Attached to this email is Addendum No. 7 to the Chemical Data Gap Investigation Work Plan, Phase 3 Soil Chemical Sampling at Area IV for Subarea 8. (Addendum No. 6; CDM Federal Programs Corporation, March 2013). The Chemical Data Gap Investigation Work Plan, Phase 3 Soil Chemical Sampling at Area IV (Phase 3 Work Plan; CDM Programs Corporation, April 2012) was approved by DTSC on April 11, 2012. This addendum includes the data gap analysis and the proposed sampling locations and objectives for each sample. This version reflects the incorporation of DTSC comments and input we received at the technical stakeholder meeting we had on June 11, 2013 and additional DTSC comments received on June 20, 2013 and June 24, 2013.

For your information, sampling of soil gas and trenching will be a component of the "go-back" analysis process. DOE intends to have a working session that will address "tracker" table items, soil gas, trenching, and completeness of Phase 3 sampling. An outcome of the go-back process will potentially be one or more work plans identifying how and where the additional sampling will be performed. DOE is currently developing a master schedule that will outline when the go-back meeting will occur and the timing of subsequent work plans.

DOE requests DTSC approval of the attached Phase 3 Addendum No.7 to the Master WPFSAP SA 8.

Thanks,

Stephie Jennings, PMP
Deputy Federal Project Director
NEPA Compliance Officer
